

Financing Solar Energy

May 21–22, 2009

Hotel Monaco

Alexandria, Virginia

NIXON PEABODY^{LLP}
ATTORNEYS AT LAW

Who should attend

Financial Institutions, Investors, and Lenders • Solar Installers, Integrators, and Developers • Government Agencies and Municipalities • Energy and Tax Accountants, Lawyers, Environmental Consultants and Other Professional Advisers • Building Owners • Potential Solar Power Purchasers or Hosts • Nonprofits and Educational Institutions

Why you should attend

It is predicted that by 2025, 10% of US electricity will come from solar energy. Today, that percentage is less than 1%, but the use of solar energy is on the rise, increasing at a rate of 40% annually over the past several years. Given the tremendous opportunities in the solar energy field and the fact that energy is one of the three major areas on which the Obama administration plans to focus, being a part of the solar energy movement is not only exciting but also one of the safest investments available in the energy arena today.

Speakers (partial list)

Richard Raeke, Borrego Solar Systems, Inc. • Edward Fenster, SunRun • Matt James, Greystone Renewable Energy Ventures • Scott Hoekman, Enterprise Community Partners • Norris Lozano, Pure Power Distribution • Stephen Tracy, Novogradac & Company • Kevin Panzica, Union Bank (invited) • Don Nimey, Reznick Group • Professionals from Nixon Peabody LLP (see the conference website for a complete listing)

Postcards only in 2009 • Going Greener • Register online • www.ipedinc.net
